About **ict@innovation**

The **ict@innovation** programme builds capacities in African small and medium ICT enterprises to make a business with Free and Open Source Software (FOSS). **ict@innovation** aims to encourage the growth of African ICT industries, particularly in Southern and East Africa, through three main actions: spreading FOSS business models for enterprises in Africa, fostering FOSS certification and supporting innovative local FOSS applications for social and economic development. **ict@innovation** is a partnership of FOSSFA (Free Software and Open Source Foundation for Africa) and InWent - Capacity Building International (Germany). The programme focuses on Free and Open Source Software (FOSS) as a key technology to drive innovation, add local value and create sustainable and affordable ICT-solutions.

With financial support by: the German Federal Ministry for Economic Cooperation and Development (BMZ) and the Open Society Initiative for Southern Africa (OSISA).
